SULUH HIDAYAT, S.Kom., M.Kom.

Project Manager | IT Project Management | Business Analysis | ERP | IT Governance

Surabaya, East Java, Indonesia • +62 856-0407-1901 • hidayat.suluh@gmail.com
linkedin.com/in/suluh-hidayat • **suluhhidayat.github.io**

PROFESSIONAL SUMMARY

Project Manager with **6+ years** of experience across IT project management, business analysis, and system analysis, specializing in **Odoo ERP implementation**. Experienced in managing concurrent IT projects across ERP, HRIS, Warehouse Management System (WMS), Asset Management, and POS systems, from planning and requirements through delivery and ongoing support.

Proven track record delivering Odoo implementations for government, retail, and e-commerce clients, from requirements and gap analysis through UAT, user training, and go-live. Served as **Internal Auditor and PIC for ISO 9001 and ISO 27001** implementation, leading to successful certification. Experienced in Agile and SDLC Waterfall environments.

Holds a **Master of Information Technology (M.Kom), Summa Cum Laude**, focused on Enterprise Architecture, IT Governance, and ERP, with published research on information security standards alignment and a national Master's Thesis Research Grant (PTM).

PROFESSIONAL EXPERIENCE

OMNI IT Consulting

May 2026 – Present

Surabaya, Indonesia

Project Manager | May 2026 – Present

Key Responsibilities:

- Plan and manage IT project scope, timelines, deliverables, resources, and risks from initiation through delivery using Agile and SDLC Waterfall.
- Coordinate clients, internal teams, and stakeholders to align requirements, priorities, expectations, and deliverables throughout the project lifecycle.
- Monitor progress, risks, issues, and dependencies, and coordinate corrective actions to keep projects on track.
- Coordinate ERP activities across Purchase, Inventory, Sales, Accounting, Manufacturing, Quality, Approval, Production, and Finance, bridging business requirements and system implementation.
- Manage project documentation and deliverables in Odoo and Google Workspace across ERP, HRIS, WMS, Asset Management, and POS projects.

Key Achievements:

- Managing **5** IT projects concurrently: **3** ongoing implementations (ERP, HRIS, and Warehouse Management System) and **2** live systems (Asset Management, POS) under maintenance & support.
- Leading an ERP implementation for a manufacturing company across **8** modules (Sales, Purchasing, Inventory, Production, Quality, Approval, Finance, and Accounting), with **50+** users; Phase 1 is nearing go-live, with Phase 2 next.
- Managing the delivery of a Human Resource Information System (HRIS) and a Warehouse Management System (WMS) alongside the ERP rollout.
- Trained **50+** users on the Asset Management System for a medical equipment company, now live and under maintenance & support alongside a Cashier & POS system for a food, beverage, and entertainment company (**25+** users).
- Took on Business Analyst and QA responsibilities alongside the PM role to keep lean project teams delivering.

Tools:

Software Method	Agile, SDLC Waterfall	**Project Management**	Odoo Project Module
UI Design	Figma	**UML Design**	draw.io
Documentation	Google Docs, Google Sheets, Odoo		

Career Break

Sep 2025 – Apr 2026

Academic & Professional Development

Activities:

- Completed master's thesis research and academic requirements.
- Focused on professional development and preparation for the next career step.

Nurosoft Consulting

Aug 2023 – Sep 2025

Hybrid, Surabaya, Indonesia

Mid-Level Business Analyst | Jul 2024 – Sep 2025

Key Responsibilities:

- Analyzed client business requirements and mapped them to Odoo ERP capabilities.
- Conducted gap analysis and proposed solutions with minimal customization.
- Prepared requirements, solution documentation, and implementation timelines.
- Configured Odoo modules and designed wireframes based on business requirements.
- Coordinated application testing, UAT, data migration, user training, and go-live support.
- Managed project schedules, monitored risks, reported progress, and maintained client relationships.

Key Achievements:

- Served as Internal Auditor and PIC for the company's **ISO 9001** and **ISO 27001** implementation, contributing to successful certification.
- Authored the BA Department's work procedures and work instructions covering Pre-Sales, Development, Go-Live, and Maintenance, along with **20+** supporting forms.
- Delivered business analysis, Odoo configuration, and data migration for **3** implementation projects: The National Agency for Academic Assessment and Accreditation, a retail company, and a retail & e-commerce company.
- Trained **10+** key users to prepare client teams for go-live.

Tools:

Software Method	Agile, SDLC Waterfall	**Project Management**	Odoo Project Module
UI Design	Figma	**UML Design**	Microsoft Visio, draw.io
Documentation	Google Docs, Google Sheets		

Jr. Business Analyst | Aug 2023 – Jul 2024

Key Responsibilities:

- Configured Odoo ERP solutions based on client business requirements.
- Designed wireframes and supported solution development and testing.
- Conducted User Acceptance Testing (UAT), data import, and go-live support.
- Monitored project progress and maintained client communication.

Vascomm

Feb 2023 – Aug 2023

Sidoarjo, Indonesia

Project Management Officer (PMO) | Feb 2023 – Aug 2023

Key Responsibilities:

- Prepared and maintained project development and delivery plans.

- Monitored project timelines, resources, progress, and deliverables.
- Coordinated project activities across teams and supported project execution.
- Managed project documentation, reports, and deliverables.
- Coordinated client requirements and project-related communication.
- Identified project issues and adjusted plans as needed.

Key Achievements:

- Monitored **4** projects across banking & payments, recruitment, e-commerce, and corporate web: Outgoing B-GOV (government virtual account payments), a job portal, a marketplace platform, and a company profile website.
- Kept all **4** projects on schedule through close tracking of timelines, resources, and deliverables.
- Coordinated Outgoing B-GOV, a government virtual account payment enhancement covering bill payment & purchase for **28** billers, BI-FAST outgoing transfers, and overbooking remarks, with a **5**-person team on a **3**-month timeline.

Tools:
