PROFILE

I turn business requirements into delivered systems, from ERP implementation to end-to-end project delivery.

Experienced across ERP (Odoo), HRIS, warehouse management, asset management and POS projects in Agile and Waterfall environments, backed by a Master of Information Technology focused on Enterprise Architecture and IT Governance.

6+	6	24	4
years in IT delivery	organizations	apps & products	research publications

CAREER JOURNEY

From developer to project manager

2019 – 2020

Software Engineer

EDP Universitas Airlangga

2021 – 2022

System Analyst

PT Patigeni Mitra Sejati

System Analyst

PT Dutakom Wibawa Putra

2023

Project Management Officer

Vascomm

2023 – 2025

Business Analyst

Nurosoft Consulting

2026 – Present

Project Manager

OMNI IT Consulting

MAY 2026 – PRESENT · SURABAYA

Project Manager, OMNI IT Consulting

What I do

- Plan and manage scope, timelines, resources and risks from initiation to delivery
- Run 5 projects concurrently: ERP, HRIS and WMS implementations, plus live Asset Management and POS systems
- Coordinate clients, internal teams and stakeholders to keep requirements aligned
- Monitor progress, issues and dependencies, and act to keep projects on track
- Run ERP projects across Purchase, Inventory, Sales, Accounting, Manufacturing and Finance
- Bridge business requirements and system implementation with clear documentation

Selected projects

ERP implementation for manufacturing and industrial companies
Phase 1 nearing go-live · Phase 2 next

Human Resource Information System (HRIS)
In progress

Warehouse Management System (WMS)
In progress

Asset Management System for a medical equipment company

Cashier & POS system for a food, beverage and entertainment business

Agile · SDLC Waterfall · Odoo · Figma · draw.io · Google Workspace

AUG 2023 – SEP 2025 · HYBRID, SURABAYA

Business Analyst, Nurosoft Consulting

Mid-Level BA · Jul 2024 – Sep 2025
